

OROFLEX[®] DRAG HOSE

BUILT TO DRAG. BUILT TO LAST.

KEY FEATURES

TPU Extruded Through Weave

Exceptional Abrasion Resistance

Premium TPU Material

UV & Ozone Resistant

Superior Bend Radius & Kink Resistance

Low Friction Loss

HOW OROFLEX DRAG STANDS OUT:

	Premium TPU Material Premium thermoplastic polyurethane material can withstand severe abrasive applications.		Longer Lengths Manufactured in special 660 foot lengths to reduce possible leaking points.
	Compact Design Flat hose design rolls up into tight coils for easy storage and transport, takes up less space than other hoses.		Smooth TPU Tube Provides low friction loss, allowing the flow to move more easily through the system.
	Engineered Woven Construction Specially designed weave pattern provides resistance to snaking, kinking, stretching, and twisting.		Supreme UV and Ozone Resistance Built to endure harsh outdoor environments and long term field exposure.
